THIS NEWS RELEASE IS INTENDED FOR DISTRIBUTION ONLY IN CANADA AND IS NOT INTENDED FOR DISTRIBUTION TO U.S. NEWSWIRE SERVICES, OR FOR RELEASE, PUBLICATION, OR DISTRIBUTION IN WHOLE OR IN PART, IN OR IN THE UNITED STATES OR IN THE UNITED STATES.

Vancouver, BC, March 21, 2024 – Aftermath Silver Ltd. (the “Company” or “Aftermath”) (TSX-V: AAG) (OTCQX: AAGFF) is pleased to announce that it intends to complete a non-brokered private placement (the “Private Placement”) of up to 13,636,363 units (the “Units”) to be sold at a price of \$0.22 per Unit for total gross proceeds of up to \$3,000,000.

Each Unit will be comprised of one common share in the capital of the Company (each, a “Common Share”) and one-half of one non-transferable Common Share purchase warrant (each whole warrant, a “Warrant”). Each Warrant is exercisable by the holder thereof to acquire one additional Common Share (a “Warrant Share”) for a period of 24 months from the date of issuance at a price of \$0.32 per Warrant Share.

The Company intends to use the net proceeds to complete geological, metallurgical and engineering studies at the Company’s Berenguela Silver-Copper-Manganese project in southern Peru (“Berenguela”), and for general working capital purposes.

Finder’s fees may be paid to certain finders in connection with the Offering, such fees being:

- a cash fee of 6% of the gross proceeds raised from subscribers introduced to the Company by the finders; and
- to eligible parties, such number of finder’s warrants (the “Finder’s Warrants”) equal to 6% of the number of Units acquired by subscribers introduced to the Company by the finders. Each Finder’s Warrant will entitle the holder thereof to purchase one Share at a price of \$0.32 per share for 24 months from the date of issuance.

All securities issued with respect to the Private Placement will be subject to a hold period of four months and one day from the date of issuance in accordance with applicable securities laws. Closing of the Private Placement is subject to receipt of all necessary regulatory approvals, including the TSX Venture Exchange.

None of the securities sold under the Private Placement have been and will not be registered under the United States Securities Act of 1933, as amended, and no such securities may be offered or sold in the United States absent registration or an applicable exemption from the registration requirements. This news release shall not constitute an offer to sell or the solicitation of an offer to buy nor shall there be any sale of the securities in the United States or any jurisdiction in which such offer, solicitation or sale would be unlawful.

Berenguela Project: Background

- The Company has an option to acquire a 100% interest in Berenguela through a binding agreement with SSR Mining.
- Berenguela hosts a potentially open-pit silver-copper-manganese resource close to Santa Lucia in Puno province, southern Peru.
- Silver, copper and manganese have crucial industrial applications in the clean energy and battery spaces. Copper and manganese have been designated critical metals by the US government and the European Union.
- The project is less than 6km from road, rail and power lines and 4 hours from Arequipa by sealed road.
- Aftermath published a resource estimate in March 2023 based on over 300 core and RC holes, which is linked [here](#).
- Recent bench-scale metallurgical test work successfully produced commercial battery-grade 99.98% pure manganese sulphate crystals (see news release dated February 29, 2024 linked [here](#).)
