AFTERMATH SILVER LTD.

Notes to Condensed Consolidated Interim Financial Statements
(Unaudited - expressed in Canadian dollars)

Three months ended August 31, 2024 and 2023

1. Nature of operations and going concern:

Aftermath Silver Ltd. (“the Company” or “Aftermath”) was incorporated under the laws of British Columbia on January 27, 2011. Its principal business activity is the acquisition, exploration and development of mineral properties. The Company’s shares are currently traded on the TSX Venture Exchange (“TSX-V”) under the symbol AAG and on the OTCQB under the symbol AAGFF. The Company’s registered and records address is Suite 1500 – 409 Granville Street, Vancouver, British Columbia, V6C 1T2.

The Company is in the exploration stage and engages principally in the acquisition and exploration of mineral properties. The recoverability of the amounts shown for mineral properties is ultimately dependent upon the existence of economically recoverable reserves, securing and maintaining title and beneficial interest in the mineral properties, obtaining necessary financing to explore and develop the mineral properties, entering into agreements with others to explore and develop the mineral properties, and upon future profitable production or proceeds from disposition of the mineral properties.

These condensed consolidated interim financial statements have been prepared on a going concern basis which assumes that the Company will be able to realize its assets and settle its obligations in the normal course of business. The Company has no operating revenue and has a history of losses. As at August 31, 2024, the Company has a working capital deficiency of \$1,498,244. The ability of the Company to carry out its planned business objectives is dependent on its ability to raise adequate financing from lenders, shareholders and other investors and/or generate operating profitability and positive cash flow. There can be no assurances that the Company will continue to obtain additional financial resources necessary and/or achieve profitability or positive cash flows. If the Company is unable to obtain adequate additional financing, the Company will be required to curtail operations and there would be significant uncertainty whether the Company would continue as a going concern and realize its assets and settle its liabilities and commitments in the normal course of business. The Company is currently evaluating various opportunities and seeking sources of financing. These material uncertainties may cast significant doubt about the Company’s ability to continue as a going concern.

2. Material accounting policies:

(a) Basis of presentation:

These condensed consolidated interim financial statements, including comparatives, have been prepared in accordance with International Accounts Standards (“IAS”) 34, “Interim Financial Reporting” using accounting policies consistent with International Financial Reporting Standards (“IFRS”), as issued by the International Accounting Standards Board and Interpretations issued by the IFRS Interpretations Committee (“IFRIC”). The accounting policies and methods of computation applied are the same as those applied in the Company’s annual consolidated financial statements for the year ended May 31, 2024.

These condensed consolidated interim financial statements were authorized for issue by the Board of Directors on October 29, 2024.

2. Material accounting policies (continued):

(b) Basis of consolidation

These condensed consolidated interim financial statements include the accounts of the Company, its wholly owned subsidiaries Minera Cachinal S.A. ("Minera Cachinal), Aftermath Silver Peru S.A., Minera Aftermath Challacollo Limitada ("MMC"), and Minera ISP S. R.L. de C.V. Intercompany balances and transactions, including any unrealized income and expenses arising from intercompany transactions, are eliminated on consolidation.

(c) New standards not yet adopted:

IFRS 18 - Presentation and Disclosure in Financial Statements

IFRS 18 is effective for reporting periods beginning on or after January 1, 2027. It introduces several new requirements that are expected to impact the presentation and disclosure of most, if not all, entities. The Company is in the process of assessing the impact on the financial statements of the new standard.

3. Material accounting estimates and judgments:

The preparation of financial statements requires management to make estimates, assumptions and judgments that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of income and expenses during the reported periods. The Company reviews its estimates and assumptions regularly; however, actual results could differ from those estimates.

Significant judgments used are as follows:

Valuations of convertible debentures

The equity portion of the convertible debenture is calculated using a discounted cash flow method which requires management to make an estimate on an appropriate discount rate.

Going concern

The assessment of the Company's ability to continue as a going concern involves judgment based on historical experience. Significant judgments are used in the Company's assessment of its ability to continue as a going concern, which are described in Note 1, and recording deferred acquisition costs and acquisition costs payable pursuant to binding agreements.

Functional currency

The functional currency of an entity is assessed on a standalone basis to determine the economic substance of the currency in which each entity performs its operations.

Acquisition of subsidiary entities

Management determines whether assets acquired, and liabilities assumed constitute a business. A business consists of inputs and processes applied to those inputs that have the ability to create outputs.

Three months ended August 31, 2024 and 2023

3. Material accounting estimates and judgments (continued):

Deferred Income tax

The determination of income tax is inherently complex and requires making certain judgments about future events. While income tax filings are subject to audits and reassessments, the Company has adequately provided for all income tax obligations. However, changes in facts and circumstances as a result of income tax audits, reassessments, jurisprudence and any new legislation may result in an increase or decrease in our provision for income taxes.

Mineral properties

The recognition of mineral properties requires judgments regarding future recoverability and carrying cost. The cost model is utilized and the value of the mineral properties is based on the acquisition expenditures incurred. At every reporting period, management assesses the potential impairment which involves assessing whether or not facts or circumstances exist that suggest the carrying amount exceeds the recoverable amount.

Significant accounting estimates used are as follows:

Share-based payments

Share-based payments are subject to estimation of the value of the award at the date of grant using pricing models such as the Black-Scholes option valuation model. The option valuation model requires the input of highly subjective assumptions including the expected stock price volatility. Because the Company's stock options have characteristics significantly different from those of traded options and because the subjective input assumptions can materially affect the calculated fair value, such value is subject to measurement uncertainty.

Shares issued in non-cash transactions

The valuation of shares issued in non-cash transactions. Generally, the valuation of non-cash transactions is based on the value of the goods or services received. When this cannot be determined, it is based on the fair value of the non-cash consideration. When non-cash transactions are entered into with employees and those providing similar services, the non-cash transactions are measured at the fair value of the consideration given up using market prices.

4. Assets held for sale:

Minera Cachinal, Chile

During the year ended May 31, 2020, the Company acquired a 100% stake in the Cachinal De La Sierra silver-gold project (the "Cachinal property") located in Chile, through the acquisition of an 80% ownership in Minera Cachinal S.A. ("Minera Cachinal") from Halo Labs Inc. ("Halo") and the acquisition of the 20% in ownership from SSR Mining Inc. ("SSR"). The value attributed to the property was \$2,493,842.

On February 14, 2023, the Company entered into a definitive agreement with Honey Badger Silver Inc. ("Honey Badger") to sell its 100% interest in Minera Cachinal for 3,508,771 common shares of Honey Badger and \$652,000 cash on the closing of the transaction.

Management determined the assets of Minera Cachinal meet the definitions of assets held for sale in accordance with IFRS 5 "Non-current Assets Held for Sale and Discontinued Operations." Consequently, the assets of Minera Cachinal were classified as a disposal group.

AFTERMATH SILVER LTD.

Notes to Condensed Consolidated Interim Financial Statements
(Unaudited - expressed in Canadian dollars)

Three months ended August 31, 2024 and 2023

4. Assets held for sale (continued):

In accordance with IFRS 5, on the reclassification of disposal groups as assets held for sale and discontinued operations, the Company remeasured the net assets of Minera Cachinal to fair value less costs of disposal estimated based on the expected proceeds of disposition. During the year ended May 31, 2024, an impairment of \$189,031 was recognized against mineral properties within assets held for sale, which is included in profit or loss for the year.

During the year ended May 31, 2024, the definitive agreement with Honey Badger was terminated and the Company reclassified \$1,852,853 to mineral properties on the derecognition of the assets held for sale (note 5).

5. Mineral Properties:

Challacollo Property Acquisition, Chile

On November 8, 2019, the Company entered into a share purchase agreement with Mandalay Resources Corp. ("Mandalay"), pursuant to which the Company would acquire Minera Mandalay Challacollo Limitada ("MMC"), which owns the Challacollo silver-gold project in Chile. In consideration for the acquisition of MMC, which closed during the year ended May 31, 2023, the Company paid Mandalay a total of \$5,000,000 in cash and issued an aggregate of 8,180,242 common shares with a value of \$2,836,035. In addition to the purchase consideration, the Company paid a finder's fee of \$357,500 cash and 306,122 common shares valued at \$71,939 and incurred closing costs of \$210,877.

The property is subject to net smelter royalty ("NSR") of 3% capped at \$3,000,000.

The Company incurred the following exploration expenditures on the Cachinal and Challacollo Mineral projects during the three months ended August 31, 2024 and 2023:

9. Related party balances and transactions:

Key management personnel consist of directors and senior management including the Executive Chairman, President and Chief Executive Officer, Chief Financial Officer, and Corporate Secretary.

During the periods ended August 31, 2024 and 2023, the Company paid or accrued the following amounts to key management personnel or companies controlled by them:

	August 31, 2024	August 31, 2023
Accounting and legal	\$ 22,500	\$ 22,500
Consulting	45,000	45,000
Geological consulting fees included in pre-acquisition exploration	44,438	32,085
Corporate secretarial	8,250	8,250
Directors' fees	22,500	22,500
Share-based payments	-	78,383
Wages and salaries	60,000	60,000
	\$ 202,688	\$ 268,718

In addition, payments to companies with common directors and officers for rent, office, and administration totaled \$19,525 (2024 - \$19,025).

As at August 31, 2024, due to related parties included \$26,805 (May 31, 2024 - \$83,923) due to key management personnel. As at August 31, 2024, \$24,149 (May 31, 2024 - \$24,616) in advances to related parties was included within prepaid expenses and advances. During the year ended May 31, 2024, the Company received a short-term loan in the amount of \$225,000 from an Officer and Director of the Company. The loan bore interest at a rate of 7.7% per annum and had a maturity of three-months. During the same year, the loan was repaid in full inclusive of interest of \$426.

10. Financial instruments:

The carrying values of cash, receivables, restricted cash, accounts payable and accrued liabilities, and due to related parties approximate their fair values due to their short terms to maturity. The promissory notes and acquisition costs payable was valued using a valuation technique.

(a) Financial instrument risk exposure and risk management:

Credit risk

Credit risk arises from the possibility that counterparties may be unable to fulfill their commitments to the Company. The Company's credit risk is primarily attributable to its liquid financial assets, including cash, restricted cash, and receivables. The carrying value of these instruments represents the Company's maximum exposure to credit risk. The Company manages and limits exposure to credit risk by maintaining its cash with high-credit quality financial institutions. The Company's receivables related to GST receivable in Canada and VAT receivable in Peru. As the only amounts owing are from government agencies, the Company has determined the credit risk to be minimal.

10. Financial instruments (continued):

(a) Financial instrument risk exposure and risk management (continued):

Liquidity risk

Liquidity risk is the risk that the Company cannot meet its financial obligations associated with financial liabilities in full. The Company manages liquidity risk through the management of its capital structure, as outlined in note 10(b) of these condensed consolidated interim financial statements.

Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company has no interest-bearing financial assets as at August 31, 2024.

Foreign currency risk

Foreign currency risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of the changes in foreign currency rates. The Company's functional and reporting currency is the Canadian dollar. The Company incurs foreign currency risk on purchases that are denominated in a currency other than the functional currency of the Company, which will have an impact on the profitability of the Company and may also affect the value of the Company's assets, liabilities and the amount of shareholders' equity.

The Company's main risks are associated with fluctuations in the US dollar ("US"), the Chilean peso ("CLP"), the Peruvian Sol ("PEN"), and the Mexican peso ("MXN"). The Company does not enter into any foreign exchange hedging contracts. As at August 31, 2024, the Company had foreign current assets totaling approximately CLP33,410,315 and PEN372,886 and amounts payable totaling approximately US\$5,618,174, CLP1,403,052, PEN294,638 and MXN263,984. The Company has determined that a 10% increase or decrease in these currencies against the Canadian dollar on these instruments, as at August 31, 2024, would result in a \$752,210 change to profit or loss for the period.

(b) Capital management:

The Company's objectives of capital management are intended to safeguard the entity's ability to support the Company's exploration and evaluation of its resource properties and support any expansion plans. The capital of the Company consists of the items included in shareholders' equity.

The Company manages the capital structure and makes adjustments in light of changes in economic conditions and the risk characteristics of the Company's underlying assets. To effectively manage the entity's capital requirements, the Company has in place a planning and budgeting process to help determine the funds required to ensure the Company has the appropriate liquidity to meet its financial objectives. Notwithstanding the risks described in note 1 of the condensed consolidated interim financial statements, the Company expects to continue to raise funds, from time to time, to continue meeting its capital management objectives.

The Company is not subject to externally imposed capital requirements. There were no changes in the Company's approach to capital management during the period.
